

Global Automotive Consultancy

The activities of Global Automotive Consultancy cover a wide range of issues within the downstream part of the automotive industry such as Car Leasing, Rental, Remarketing of used cars, Aftersales, Fleet management, and Insurance – involving a clientele in the wholesale, retail and end-user segments of the supplier-chain.

All activities are carried out with a refreshing and open way of thinking in which durability and persistence are the key factors in reaching a mutual success.

Besides the Netherlands and Romania, Global Automotive Consultancy is also active in Belgium, England, Israel, Italy, Germany, France, Spain and Poland.
